The rates proposed for the period 1 July thru 29 September 1963 utilize the same classifications of labor as were used for the first six months of 1963. Attached is Appendix II showing the computation of the proposed rates, which are as follows:

On 30 September 1963 four other contracts, in addition to Contract CA-20, became effective. All of these contracts had many of the same type labor requirements. In order to limit the number of labor classifications for which rates would be required certain new ones were established as of 29 September 1963 which serve the needs of all contracts.
